Summary

Computer Science undergraduate with hands-on experience building **full-stack applications** using JavaScript, TypeScript, React.js, Next.js, Node.js, REST APIs, and databases. Strong foundation in **Data Structures & Algorithms, OOP, and core computer science**, with experience developing and deploying end-to-end web applications.

Technical Skills

Languages: C++, C, JavaScript, TypeScript
Frontend: HTML, CSS, React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: PostgreSQL, MongoDB
Tools: Git, GitHub, Postman, Vercel, Inngest
Core: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks, COA

Projects

AI Interview WebApp — *Next.js, TypeScript, PostgreSQL, LLM API* GitHub

- Built a full-stack interview preparation platform supporting **technical and HR mock interviews**, dynamic question generation, automated evaluation, and personalized candidate feedback.
- Designed and implemented **REST APIs and backend workflows** for interview sessions, question generation, and candidate-response evaluation with PostgreSQL for persistent data storage.
- Developed, tested, and deployed the application as an **end-to-end web application**, integrating frontend, backend, database, and external API components.

AI Mental Therapist — *Next.js, Node.js, Express.js, MongoDB, Inngest* GitHub

- Developing a full-stack web application focused on **context-aware user interactions, conversational data, and personalized user experiences**.
- Building backend services and application workflows using **Node.js, Express.js, MongoDB, and Inngest**, with persistent storage for user and conversation data.
- Integrating frontend and backend components using **Next.js and REST APIs**, while developing and testing features across the application stack.

Achievements

- **HCL GUVI × ABES Hackathon – 2nd Place:** Ranked **2nd among 480+ teams** for an AI-powered Interview Preparation Platform featuring role-based mock interviews, real-time AI evaluation, and automated candidate feedback.
- **Ardethon – 2nd Place:** Ranked **2nd among 45+ teams** for developing a healthcare information platform with appointment booking and health resources.
- **GATE CS 2026:** Qualified with an **AIR of 20,661**.

Certifications & Publications

IEEE ICCSC 2026 – Co-authored and published research on an AI-driven interview assessment and skill evaluation platform [Paper]

NPTEL – C Programming and Assembly Language

Udemy – The Complete Web Development Bootcamp

Leadership & Activities

- **ARDEMA – Core Member:** Contributed to student-led software development initiatives, technical activities, and project-based events within the college community.
